### **SUPERVISING CIVIL ENGINEER**

\$9,864.00 - \$11,910.00 Monthly

**FINAL FILING DATE:** November 7<sup>th</sup>, 2016 at 05:00 PM P.S.T.

The City of Berkeley Public Works Department has an exciting opportunity for a Supervising Civil Engineer. The individual will supervise a section of the Department's Engineering Division engaged in the delivery of a variety of Public Works infrastructure projects. The Vision of the Engineering Division is "to deliver infrastructure projects to the community in an efficient, innovative, and cost-effective manner, in an atmosphere of mutual respect and collaboration." Depending on the needs of the Division and background of the successful candidate, the individual may be actively involved in supervising the planning and delivery of some combination of the following types of projects/activities: sanitary sewer, storm drainage, street paving, sidewalks, facilities, structures, and private development review.

Reporting directly to the Manager of Engineering, the Supervising Civil Engineer has status as a section head within the Engineering Division with responsibility for planning, organizing, directing and reviewing the work of engineering and other technical and administrative personnel including professional engineering consultants, in the preparation of plans, specifications, cost estimates, program budgets, project schedules, inspections, and other related project and program management activities. The position requires strong administrative, communication, supervisory and leadership skills, and a thorough understanding of the technical aspects of engineering within assigned projects and programs.

The ideal candidate has a strong administrative experience in managing staff and projects; excellent written and oral communications is crucial as well as the successful candidate will have a thorough understanding of technical aspects of engineering.
