

Requisition Number: 2300228

Salary Range: \$136,128.72 - \$172,164.72 Annually

Application Deadline: March 09, 2023

Senior Engineer – Operations & Maintenance Engineering and Asset Management – 2300228

About the Department

The [Environmental Services Department \(ESD\)](#) is a national leader in pollution prevention, watershed protection, utility service provision, and climate action. Together, ESD employees positively impact every resident and business in San Jose.

Our department is an exceptional place to start or grow your career. We have a supportive leadership team, numerous professional growth opportunities, and an inclusive workplace culture that is welcoming of your talents! We offer an array of meaningful career paths and value flexibility – offering hybrid work and alternative work schedules in select roles. Additionally, the City offers excellent health and pension [benefits](#), as well as 15 paid holidays!

To learn more about ESD, follow @sjenvironment on [Twitter](#), [Facebook](#) and [Instagram](#) and San Jose Environmental Services on LinkedIn.

Positions & Duties

Please note that applications are currently **not** accepted through CalOpps or any other third-party job board application system. To apply, applicants must complete an application via the City of San Jose's website at www.sanjoseca.gov/citycareers.

The actual salary shall be determined by the final candidate's qualifications and experience. In addition to the starting salary, employees in the Senior Engineer classification shall also receive an approximate five percent (5%) ongoing non-pensionable compensation pay.

Per the City's [COVID19 Mandatory Vaccination Policy](#), the City requires all employees starting on or after February 11, 2022, to provide proof of vaccination as a condition of employment absent a documented medical and/or religious exemption. Proof of vaccination means that employees are required to be "up-to-date" with regard to the COVID-19 vaccine. Consistent with the Santa Clara County Public Health Order issued on December 28, 2021, "up-to-date" means that employees are required to be vaccinated with the entire recommended initial series of a COVID-19 vaccine (two doses of the Pfizer, Moderna, or Novavax COVID-19 vaccine or a single dose of the Johnson & Johnson COVID-19 vaccine).

About Wastewater Operations & Maintenance

The Wastewater Facility Operations & Maintenance section is responsible for the daily functioning and control of the Regional Wastewater Facility. Staff is present 24 hours a day, seven days a week, with a

minimum of eight personnel on-site at all times. The facility operates with an extensive system of instrumentation that sends status to a central processing unit (computer system).

Operations are supported by maintenance staff for repairs for technical services for the design and implementation of improvement and replacement projects, and the laboratory for hundreds of accurate analyses every week to assess the treatment results.

About the Position

The City's San Jose-Santa Clara Regional Wastewater Facility (RWF) in the Environmental Services Department is currently recruiting for a highly motivated Senior Engineer to oversee the Operations and Maintenance (O&M) Engineering and Asset Management section comprising ten (10) full-time employees, including engineers, engineering technicians, and Geographic Information System Specialists.

Review the Senior Engineer class specification for more information: <https://www.sanjoseca.gov/Home/ShowDocument?id=35872>

***This recruitment may be used to fill multiple positions in this, or other divisions or departments. If you are interested in employment in this classification, you should apply to ensure you are considered for additional opportunities that may utilize the applicants from this recruitment.

Qualifications

Minimum Qualifications:

1. Education: Bachelor's degree from an accredited college or university in Civil, Mechanical, Chemical, Environmental, Sanitary Engineering or a closely related field. A Master's degree in these fields or a related field is highly desirable.
2. Experience: Five (5) years of progressively responsible professional engineering experience in Wastewater Treatment, Civil, Mechanical, Environmental, Sanitary Engineering, or a closely related field.
3. Licenses or Certificates: Professional Engineer (PE) Certification in Civil, Mechanical, or Chemical Engineering. If a candidate possesses a PE license from another state, a California P.E. must be obtained within one year of the date of hire. Possession of a valid State of California driver's license.
4. Employment Eligibility: Federal law requires all employees to provide verification of their eligibility to work in this country. Please be informed that the City of San Jose will NOT sponsor, represent or sign any documents related to visa applications/transfers for H1-B or any other type of visa which requires an employer application.

If you have questions about the duties of these positions, the selection, or the hiring processes, please contact Lupe Rodarte-Velasquez at lupe.rodarte@sanjoseca.gov.
