

Organization: City of San Leandro
Title: Assistant/Associate Engineer
Job Type: Full-time
State: California
City: San Leandro
Salary Range: Assistant Engineer \$7,564.00 - \$9,193.00/DOE.
Associate Engineer \$8,548.00 - \$10,390.00/DOE.

APPLY IMMEDIATELY, ONLINE APPLICATIONS WILL BE ACCEPTED UNTIL 5:00 P.M. ON FRIDAY, FEBRUARY 28, 2020.

The City of San Leandro's Engineering and Transportation Department is responsible for the administration of all professional engineering services which include traffic, transportation, Capital Improvement Projects (CIP), engineering construction, inspection and permit review of private land development applications, and support for various public improvements.

Currently there is one full-time position available. Depending upon qualifications, the City may fill the position at either the Assistant or Associate Engineer level.

The Eligible List established from this recruitment will be used to fill the current vacancy and any future vacancies that may occur within the City, while the list remains active. Employment Lists shall remain in effect for one year, unless terminated or exhausted.

The Assistant Engineer is the journey level in the professional engineering series. Candidates assigned to this class are expected to perform responsible and professional engineering office and field work with the ability to work independently, exercising judgment and initiative. This position has no supervisory responsibilities and receives limited supervision from assigned management and/or supervisory staff.

The Associate Engineer is distinguished from the Assistant Engineer by its professional license requirement, level of technical expertise and supervisory responsibility over assigned support personnel. This position exercises independent judgment, and receives limited supervision from assigned management and/or supervisory staff.

Education/Experience/Licenses/Certifications:

A Bachelor's degree from an accredited college or university with major coursework in civil, structural engineering or a closely-related engineering field.

Possession and continued maintenance of a valid class "C" California driver's license is required.

Assistant Engineer: Two years of progressively responsible experience in engineering design, inspection of construction and infrastructure projects; structural detailing. Possession and maintenance of Engineer-in-Training (EIT) certificate is highly desired.

Associate Engineer: Three years of progressively responsible civil or structural engineering work experience including building or land development design and review and inspection of work related to building code compliance, project management, or closely-related field, including one year of experience in a lead worker capacity. Possession by date of hire and maintenance of California State registration as a Civil Engineer.
