
SENIOR CIVIL ENGINEER
County of San Mateo
\$10,799-\$13,499/Month

The **Department of Public Works** is seeking a **Senior Civil Engineer in the Utilities-Flood Control-Watershed Protection Section of the Engineering & Resource Protection Division**.

Senior Civil Engineers serve as project engineers in charge of a small group of subordinate engineers and/or sub-professional staff engaged in a wide variety of responsible civil engineering work and other major projects. Senior Civil Engineers also perform difficult and complex engineering planning, design, and investigation activities and perform related work as required.

The **ideal candidate** for this position will possess:

- At least four years of civil engineering work experience designing public works infrastructure projects, such as roadways, sanitary sewer and drainage systems, street lighting, and flood control
- Strong understanding of the process for planning, budgeting, and financing public infrastructures
- Strong leadership qualities to foster teamwork and a positive work environment
- Excellent communication and public presentation skills
- Ability to build and maintain effective working relationships with direct reports, co-workers, managers, vendors, stakeholders, and customers
- Hands-on experience using computer-aided drafting software, such as AutoCAD, SoftDesk, LDD, and Civil 3D to design public works infrastructure projects
- Familiarity with California Department of Transportation standard specifications and standard plans
- Hands-on experience with State and Federally funded projects and processes
- Experience with environmental permitting processes and working with regulatory agencies

QUALIFICATIONS

Licensure/Certification:

- Possession of a valid Certificate of Registration as a Professional Civil Engineer in the State of California
- Class C California driver license or equivalent

Education and Experience: Any combination of education and experience that would likely provide the required knowledge, skills, and abilities is qualifying. A typical way to qualify is:

- Four years of professional civil engineering experience which has included field and office work in the planning, design, construction, and maintenance of a variety of civil engineering projects

Final Filing Date: May 20, 2021

To learn more about the position and to apply online, please visit our website at <https://www.governmentjobs.com/careers/sanmateo/jobs/3063358-0/senior-civil-engineer-open-and-promotional>. Applications are only accepted online. Responses to the supplemental questions must be submitted in addition to our regular employment application form. A resume will not be accepted as a substitute for the required employment application and supplemental questionnaire. EOE
